

Senior Director – Quality and Safety
Franklin Community Health Network and Western Maine Health
Farmington and Norway, ME
Full Time, Days

Franklin Community Health Network and Western Maine Health are seeking a **Senior Director** for their locations in **Farmington** and **Norway**. The Senior Director for Quality and Safety oversees and manages the coordination of Performance Improvement, Patient Safety and Risk Management to align quality improvement initiatives across the organization. S/he plans, organizes, develops, and directs the overall operation of the department in accordance with federal state, and local standards, guidelines and regulations, in order to ensure a comprehensive quality program. S/he also collaborates with relevant stakeholders in planning and decision making that affects the department.

Qualifications:

- Bachelor's degree from a 4 year college or university in an accredited RN program; Master's degree preferred with at least five years of experience related to clinical quality, patient safety and risk management.
- Active State of Maine RN license.
- Certification as a Certified Professional in Healthcare Quality (CPHQ) strongly preferred.
- Familiarity with electronic health records, clinical decision support, patient safety reporting, and clinical quality measurement and reporting.
- Ability to work with mathematical concepts such as statistical inference, and to define problems, collect data, establish facts, and draw valid conclusions. Ability to interpret an extensive variety of technical information in mathematical or diagram form and deal with several abstract and concrete variables.
- Self-directed and self-motivated with a firm understanding of leadership role.
- Effective communicator with the ability to create strong partnerships.

Franklin Community Health Network

Franklin Health supports a Patient Centered Medical Home (PCMH) model of care. The PCMH is a health care setting that facilitates partnerships between individual patients, their personal physicians, and the patient's family or support system. In the team-based care model, all care team members contribute to the health of the patients by working at the top of their licensure and/or skill set.

Western Maine Health

At Western Maine Health, we take pride in our family atmosphere and values. When you join Western Maine Health, you become part of a family offering high-quality care in a beautiful, rural setting amidst a wealth of year-round outdoor recreational activities.

MaineHealth values diversity and is an Equal Opportunity/Affirmative Action employer. Federal and state laws prohibit discrimination in employment because of race, color, national origin, religion, age, sex, sexual orientation, disability or veteran status.
